Dean Downing To Head School's Business Affairs

Mr. Dero G. Downing, dean of admissions at Western, has been appointed dean of business affairs for the college, according to an announcement this week by President Kelly Thompson.

Dr. Thompson also announced appointment of two staff business officers who will assist Dean Downing in Western's business office organization.

Dr. Thompson said the creation of the position of dean of business affairs and the addition of two staff business officers are part of a long-range plan for an administrative organization which has been under consideration for some time. The total plan will be implemented as rapidly as possible to meet the needs of the expanding and growing college.

Charles L. Zettlemoyer will join the business staff February 20, and Harry K. Largent will as-

sume his duties as a staff business officer on March 1.

Both men have established reputations in business administration, budgeting, accounting, and financial research related to higher education, Dr. Thompson said.

DEAN DOWNING

Dean Downing, who presently is serving as acting business manager in addition to his other duties, was awarded the A.B. degree by Western in 1943 and the M.A. degree in 1947. In 1958 he was awarded the Ed. S. degree by George Peabody College.

In 1946 he returned from military service with the U.S. Navy and joined the Western Training School as a mathematics teacher and coach of the College High basketball team. In 1950 he gave up his coaching duties and devoted full time to teaching mathematics. In September, 1956, he succeeded Dr. C. H. Jagers as director of the Training School.

September 1, 1959, Mr. Downing was named registrar at

Western, succeeding E. H. Cannon who retired. He was named Dean of Admissions in January, 1962.

Zettlemoyer, a native of Fleetwood, Pa., comes to Western from the Kentucky Legislative Research Commission in Frankfort where he has been employed since March, 1960. He was a budget analyst with the commission and was responsible for research in fiscal matters.

Zettlemoyer formerly was with the Kentucky Department

C. R. Martin Donates To Scholarship Funds

Charles R. (Roy) Martin, Wilmington, Del., has made an additional contribution of approximately \$4,500 to scholarship funds at Western, according to an announcement by Dr. Kelly Thompson.

Last year Martin contributed an amount used to set up scholarship funds honoring Dr. Arndt M. Stickle, Dr. F. C. Grise, and Dr. N. C. Taff, former faculty members at Western. Part of last year's grant was contributed to the George V. Page Scholarship Fund which was established in 1960 by former students in the Department of Physics at Western.

Miss Robertson Funds from the latest contribution were added to those established last year. A portion was used to establish an additional award fund in honor of Miss Gabrielle Robertson.

Miss Robertson joined Western as a member of the Department of History faculty in 1916. She retired at the close of the 1960 summer term.

Martin is a financial consultant for the duPont Chemical Co. and a 1927 Western graduate. A native of Nevada, Mo., Martin came to Bowling Green in the early 1920's as an oil operator during the oil boom in the Warren county area. He entered Western in 1924 and was

Western Receives Grant For High School Teachers

Western has received a \$95,790 grant from the National Science Foundation, Dr. Kelly Thompson announced.

The grant is to support a combined summer and in-service institute in science and mathematics for secondary school teachers to be held during the 1964 summer term and the 1964-65 school year, Dr. Thompson said. Western has conducted such a program for the past five years.

Western earlier received a grant of \$22,130 to finance its sixth summer science program for high school students.

The latest award is the largest of 21 grants Western has received from the National Science Foundation since 1958. The total amount of the grants is \$740,561.

Begins June 15

The summer institute will begin June 15 and extend through August 7. Stipends of \$600 will be made available to

approximately 65 participants. Other support of the participants will include travel allowance at a maximum of \$80 each and a maximum allowance of \$480 for dependents.

The dates of the in-service institute will correspond with the 1964-65 academic year at Western. Support of participants will include free tuition, book allowance, and travel expenses to Western for the weekly classes.

Dr. Ward C. Sumpter

Both institutes will be under the direction of Dr. Ward C. Sumpter of Western's chemistry department and associate director, Dr. H. L. Stephens, biology department.

The summer institute and the in-service program will be designed to lead through a coordinated sequence of working successive institutes to fulfill the science requirements for the master's degree.

Courses will be offered in biology, chemistry, physics, mathematics, and the earth sciences. To fit the sequential program the several courses offered by each department are scheduled in successive institutes to make

Breakfast Set April 10

Western will hold its annual Get-Together Breakfast for alumni, faculty, students, and friends of the college in the Brown Hotel's Crystal Ballroom Friday morning, April 10, at 8 a. m. in Louisville.

President Kelly Thompson announced the date for the Get-Together Breakfast this week. The Get-Together Breakfast is a highlight each year of the Kentucky Education Association's conference held in Louisville every spring. A capacity audience of better than 800 persons packed the Crystal Ballroom last year and another capacity house is expected this year.

Tickets for the Breakfast, priced at \$1.50, will go on sale on campus early next month in the Business Office. Tickets for the Breakfast will be available during the entire

NOTICE

The S.N.E.A. Oratorical contest originally scheduled for February 18, in Snell Hall has been postponed until February 27, at 4 p.m.

COMMISSIONED—Pictured above are the eight January graduates who were commissioned in the U. S. Armed Forces during ceremonies Feb. 3. Commissioned in the U. S. Army Reserve were, from left, James I. Daily (partially hidden by honor guard), Douglas L. Verdier, John N. Vittoe, Lysander M. Carneal, George D. Head, Wesdie L. Webb, and Warren L. Taylor. Receiving a commission in the U. S. Marine Corps Reserve was William O. Moore (seated right).

Eight Graduates Are Commissioned

Eight January graduates received commissions as Second Lieutenants in the U.S. Armed Forces during ceremonies held in the Paul L. Garrett Student Center, February 3.

Those receiving commissions in the U.S. Army Reserve through Western's ROTC program and their branch assignments were: James I. Daily, New Albany, Ind., Infantry; Douglas L. Verdier, Bowling Green, Adjutant Generals Corps; John N. Vittoe, Elizabethtown,

Artillery; Lysander M. Carneal, Nebo, Artillery; George D. Head, Owensboro, Artillery; Warren L. Taylor, Russellville, Signal Corps; and Wesdie L. Webb, Caneyville, Armor.

Lt. Col. Grover G. Smith, Professor of Military Science, administered the oath of allegiance to the new officers and Dean Raymond L. Cravens presented them with their commissions.

DMG's Named Daily, Verdier, and Vittoe

were also recognized as Distinguished Military Graduates by Col. Smith.

Receiving a commission in the U.S. Marine Corps Reserve during the same ceremony was William O. Moore, Greensburg. Lt. Col. Hugh Thomason, USMCR, presented Moore his commission.

In addition to relatives and friends of those receiving commissions, Dr. William R. Hour-

High School Senior Day Date Set

Western's annual High School Senior Day, which presents an opportunity for seniors from all over western and south-central Kentucky to visit the campus and get a first-hand look at what Western has to offer, is scheduled this year for Friday, May 1.

More than 3,000 seniors from 62 schools attended last year's Senior Day, and the Senior Day Committee expects to exceed that number this year.

In past years the visitors have attended an assembly in Western's gymnasium during the morning and were then treated to a luncheon prepared by Western's culinary staff. During the afternoon all buildings are open to the seniors and guided tours are conducted over the campus. This year's Senior Day is expected to follow the same general format.

High School Senior Day was inaugurated at Western in 1934

Patty Griffis Selected New Pershing Rifle Sponsor

Patty Griffis, freshman music major, Bowling Green, has been selected honorary sponsor of the Pershing Rifles Company B-3. She will be Honorary Captain of Company B-3 beginning in September, 1964.

Patty is the daughter of Mr. and Mrs. Estil Griffis, 1705 Park street. She is a freshman cheerleader, a member of A Cappella choir, and serves as sponsor of Company "A", Second Battalion, of the ROTC Brigade.

Sports, small collections, singing, and her own show on WLTV occupy most of Patty's leisure moments.

Patty was selected sponsor after almost two months of questions, interviews, informal personality tests, and appearances before the company.

"I was very excited and happy

Sophomores Schedule Valentine Ball

The Carnations and Trindels will furnish the entertainment for the annual Valentine's Day Sweetheart Ball, Friday, February 14, according to the sponsoring Sophomore class president Al Smith.

The Sweetheart Ball will feature dancing from 9 p.m. until 1 a.m. with the selection and crowning of the Valentine Royalty to take place sometime during the festivities in the Paul L. Garrett Student Center.

Selection of the Sweetheart Ball King and Queen will be by ballot of those present. Voters will choose from five candidates for Queen and five candidates for King.

The five girls vying for the Queen's title are Christine DeVries, Betty Jo Walker, Dottie Adkins, Pam Picard, and Ann Greenwell.

The five boys are: Mike Owsley, Richard Tenborge, Pat Miller, Eddie Walker, and Gary Kelley.

Tickets for the event are now on sale in the Student Center at an advance price of \$2.00 per couple. Tickets will be \$2.50 at the door.

DROPS

The Office of the Dean of the College has announced that the last date on which a course may be dropped without a grade has been changed to February 18, next Tuesday. This date was originally listed in the calendar as March 2.

PATTY GRIFFIS

C. R. Martin

Oral Hygiene Encouraged During Dental Health Weeks

Development of good dental hygiene through education is being emphasized this year by the American Dental Association in connection with the observance of National Children's Dental Health Weeks, February 2-15.

Dr. Willis K. Harrison, local dentist, heads the Pennyrite District Society, of which Warren and several surrounding counties are members.

The local chapter is placing most emphasis on the principle of public enlightenment, as shown by its slogan, "You must inform before you perform."

Much of their information is being directed to children through talks and demonstrations at elementary and high schools. Further instruction is directed to hospitals where new mothers are instructed in post-natal dental care of their infants.

Local radio, television, and newspapers are slated to help spread the use of sound dental

practices, with a booth to be set up downtown to demonstrate proper toothbrush techniques.

Another local dentist, Dr. Charles D. Carter, is chairman of the Kentucky State Association of Dental Health and chairman of the Council of Dental Health Education. The wife of another Bowling Green dentist, Mrs. Larry Pack, is chairwoman of the Pennyrite Auxiliary.

On a national level the ADA is working toward wider use of fluoridation in city water systems. It has been shown that drinking fluoridated water from birth can reduce tooth decay by as much as 60 per cent.

According to a national survey, tooth decay is most prevalent among those aged 15-19. Since this group includes a sizeable portion of college enrollments, better dental hygiene assumes a role of much importance.

Dr. Thompson To Address Chicago Meeting

President Kelly Thompson will deliver the keynote address at the annual meeting of the National Laboratory School Administrators Association in Chicago on February 18 and 19.

Mr. James Carpenter, Director of Western Training School, will introduce President Thompson, who will speak on "Today's Image of the Laboratory School."

Also attending the meeting will be Mr. John Lee and Dr. Jack Fuller of the Education department. The group plans to leave for Chicago Monday, February 17.

Before returning to Western on Friday, February 21, President Thompson plans to attend the meeting of the American Association of Colleges for Teachers of Education.

Mr. Lee and Dr. Fuller will attend portions of another meeting, the Association for Student Teaching, which will be held in Chicago, February 19-22, before returning to Bowling Green.

of Finance's budget division.

A 1956 graduate of Lebanon Valley College, Zettlemoyer did graduate work at Pennsylvania State University in 1956-57. In 1958 he was certified by the Southern Regional Training Program in public administration.

Largen has been employed by the Kentucky Department of Finance as a member of the budget division since February, 1961. Prior to joining the budget division, he was an accountant in the department's division of accounts from November, 1958.

A native of Simpsonville, Largen was graduated by the University of Kentucky in 1958 with a bachelor of science degree in commerce. His major was business administration.

Ronnie Sutton, currently the college field representative in the office of Public Relations, has been named admissions counselor. Sutton will direct the admissions program until the new plan of college administration is completed.

Mr. Sutton joined the staff in February, 1963. A native of Brodhead, he was awarded the B.S. degree by Western in 1961 and the M.A. degree by the University of Kentucky in 1962.

Start And Finish....

It should never be said that opportunity only knocks once. For many Westerners it seems to knock repeatedly. As a new semester begins there is once again a chance to "do better". But, are you going to take advantage of this opportunity, or will you just let it drag by and when its too late say, "Well, I intended to do that, but ...?"

Whether or not it is realized, every Western student should consider himself lucky in that he is enrolled in school this semester. There were many Fall semester '63 students who are not Spring semester '64 students. The reasons for this situation vary and are too numerous to discuss here, but they are well worth considering.

One should not take for granted or consider lightly his opportunity for education. When he goes through the registration line, he has made an agreement with the College that he will attend classes faithfully and study to the best of his ability. The College has, in turn, agreed to deal with him fairly and to provide for him sufficient instruction. If a contract such as this is broken, the erring party cannot expect to receive any benefits or privileges which went with it.

Determine right now to begin this semester on the right foot and to end this semester standing upright. Don't lose heart at mid-term when the race is just half over. Stick with it. You'll be glad you did.

Horrorscope

AQUARIUS

(January 20 to February 18)

Make the most of your personal popularity through this month; circulate more and make new contacts. At the same time, do not permit social activity to cause any rifts in your present affairs. Be sneaky about your stepping-out. Some nerve strain due to your work could pose a threat to health on the 20th, so do not attend classes that day—sleep.

PISCES

(February 19 to March 20)

Cross-currents tend to make your life something of a whirlpool this month. So now is the time to plan for your future education—Catch up on your reading. Buy two more 50 cent paperbacks and borrow four from your roommate. However, since this is a bad month, do not read them in class. Catch up on your sleep.

AIRES

(March 21 to April 20)

The planetary pattern indicates this will be a month of decisions. If you want to switch schools, now is a good time. Your deficiency slip should have arrived by now. The last ten days of the month show music will be important to you. So, learn the Big B.

GEMINI

(May 21 to June 20)

The tide of solar forces runs high in your financial life until the 20th when you will discover you have added instead of subtracted in your bank book.

CANCER

(June 21 to July 20)

Stellar patterns indicate your love life will be rather unhappy the 20th so be scouting around for a new dreamboat. However, be cautious, be sure the old one is over. How to tell—if you sit up all night waiting for him to come and when he doesn't, you don't bother making excuses but get your math assignment; if you no longer think his elephant jokes are funny; if you no longer polish his ring or pin every hour on the hour—it's over.

Cupid Is Here To Stay...

By Sue Tucker

It's a bird, it's a plane, it's Cupid! Although Valentine's Day, when Cupid really reigns, is not far off, he never seems to stray far any day of the year.

You, the spectator, may find his pierced arrow in almost any parked car on campus. If you suddenly look through your rear view mirror to straighten your hair, don't be too surprised to find one of those sizzling Taylor-Burton love scenes being played in the car directly behind you. You inadvertently gulp down a "Wow" and then quietly announce to yourself, "Well, excuse me!"

Walking to class, you can note Cupid's presence in that famous handclasp which conveys that "me for you and you for me" feeling. It's this type of bond which politicians wish they could muster from the millions of voters with whom they merely shake hands.

Rainy weather shows Cupid at his best. If a lass with a fairly good-size umbrella is spotted by a poor drenched lad, she will find excess baggage latched onto her waistline before rounding the next corner. Perhaps today the lass is being taken for a ride. But her day of triumph is coming. Cupid is now taking orders for one dozen roses, her favorite box of candy, and whatever else she desires, all to be delivered promptly at her dorm on February 14.

Analyze Valentines With Scientific Care

By Neil Myers

As Time dribbles itself nearer and nearer to THE DAY, each successive moment tingles pinker with excitement and you—well, you are absolutely bluish-red with anticipation.

Yes, it's not long now before THE DAY arrives. (Certainly it isn't necessary to waste valuable space to tell YOU that THE DAY is the exultantly important, universally acclaimed St. Valentine's Day, and that it is this Friday).

Anticipation

Girls, we realize that you have already rented six wheelbarrows to aid you in transporting your many valentines to your room, but do not be satisfied with quantity only! As in everything else (grades, friends, freckles, toes), it is quality not quantity that counts.

As you open each of your 9,359 valentines, examine them carefully and thoughtfully. Don't be alarmed if you have to cut a week's classes in order to study your love-letters. There is no professor who doesn't realize the importance of Saint Valentine and his rank with the noted men of history such as Plato, Descartes, Pythagoras, Epicurus and Bo Diddley.

All Are Not Alike

There are several basic kinds of valentines and, to quote one of the better known poets of our time,

You can't judge a book

By looking at its cover

But by examining his valentine,

You can sure judge your lover.

If you receive a valentine which sticks to your fingers due to the excess glue used in pasting on the paper doily trim, soak your hands in warm water and give the sender the shaft. Its a cinch he's poor and can never give you the important things in life (mink coats, Caribbean cruises, wall-to-wall T. V.); but not only is he poor, he's wasteful: think of the excess glue!

By Goldwater's law of averages, you are bound to receive a card decorated with small yellow vertebrates called ducks or sweet-faced scratchy things called cats. This is bad. By reading the greeting which says something profound like "It would be just ducky if you'd be mine," or "You're so purr-ty you make me meow," you can tell that it's from the

five-year-old brat across the street who has a crush on you. If the five-year-old brat doesn't have a crush on you, it ain't no big thing; but R. S. V. P. with a "Dear John" immediately. Somehow, your lover doesn't seem to be the stable, mature-minded fellow you'd hoped for.

The Special One

Of course, anyone as popular as you will receive at least one valentine with a red satin heart and three little bows across the top. (This is good. You know that the sender has excellent taste, for the card must have cost at least 50c.)

Below the three bows will be the heart-fluttering words, "SWEETHEART, I LOVE YOU," and on the inside will be a 25-line poem telling you why you are loved so much (Of course, you already knew all those things about yourself, but it's nice to see your qualities incorporated into a 25-line poem). Now here is a real Robert Browning and seemingly the ideal one for you.

Try to calm your capillaries as you read the closing lines, "Happy Valentines Day to My Darling. Forever yours, Grandma."

However, if your grandmother signs her name Elmo Fritzel or something equally as endearing, get rid of Elmo, too. The nerve of his thinking that your attributes could be summed up in 25 lines!

Note To Men

P.S. For you men who are plagued with overactive curiosity glands and did not heed our warning, be careful in choosing your true love's card. You'd probably be safer sending candy—unless she ascertains that you think she's too skinny, or that you don't care if she gets fat and hence don't really love her, or...

St. Valentine must have been suffering from severe brain injury to have invented THE DAY. They say he got hit in the head with an arrow.

Colonel Grover Smith Lectures To Classes

Colonel Grover G. Smith of Western's Military Science department presented a lecture of the Civil War to many students of Bowling Green high school throughout the day of Friday, February 7.

WESTERN KENTUCKY STATE COLLEGE BOWLING GREEN, KENTUCKY

OFFICE OF THE PRESIDENT

February 12, 1964

A Message from the President

Welcome to a new semester.

The beginning of a semester is a good time for taking stock. It is a time to evaluate past performance and for a personal commitment to improve performance in the future. To those who worked up to their capabilities during the past semester, the College extends its congratulations and its wishes for continued success. We would remind those who were not satisfied with their achievement that out of failure, great success often grows. Rather than be discouraged by a poor semester, accept it as a challenge to improvement.

We take this opportunity to welcome you back to the Hill. Begin the semester with a new commitment to profit from the educational opportunities Western has to offer. Those who achieve here will continue to achieve; those who are satisfied with less than their best may forever be content with inferior achievement.

A special Western welcome is extended to new students. You will not long be a stranger here. The indomitable spirit of this Hill—the friendliness of your fellow students—the concern of the faculty for your academic welfare will make you soon feel a part of all that is Western.

"The Spirit Makes the Master."

Kelly Thompson

HILLTOPICS

by SANDRA STUART

Hilltopic

The Herald staff, in behalf of the student body, extends congratulations to Mr. Dero Downing upon his appointment as Dean of Business Affairs. It is our contention that a more capable person could not fill this position.

Hilltopic

From us to you: Administrative Staff and Faculty

For all Spring semester '64 Toppers, we thank you for your diligent work in registration. Many students have been heard to comment on the "painlessness" of registration this semester. We know this could not be true without great effort on your part.

Again, we thank you.

Hilltopic

It looks as if Coach Tom Ecker's "cinder men" just don't know when to stop. Jerome Beazley is a good example of dedication in action. Even with a broken bone in his foot — he didn't want to stop running.

Coach Ecker and Thinlins: Best of luck this week-end in the Mason-Dixon Games.

Hilltopic

Hey, Sweetheart! (Well, it is almost Valentine's Day, you know.)

Don't you fellows forget to drop in the mail that card for Mom, and to put in your order for a box of candy, flowers, or whatever that "love of your life" prefers.

And, if you really want to make her happy — take her to the Sweetheart Ball.

Hilltopic

Do you ever notice the faces of Westerners you meet when walking across campus? Some of them appear as cloudy as the sky just before a thunder storm.

Give them the old shock treatment. Greet them with a smile. You'll be surprised at some of the reactions you'll get.

For Use In Space-Age Research

Infrared Spectrometer Installed
In Western Physics Laboratory

Western last month took its first steps toward involvement in space age research for the government and private industry when new research equipment was installed in the physics department.

The piece of equipment is an Infrared Spectrometer, which Dr. M. W. Russell, head of the Physics department, called "our most important research instrument up to the present time."

An Infrared Spectrometer is a device with which the activity of molecules can be investigated. In addition, the composition of materials can be studied through spectrum analysis.

Dr. Russell said the new addition to the optics and spectroscopy laboratory would enable Western research scientists to get deeply involved in research into the properties of materials used in space-craft and instruments for studying space environments. He said also he could foresee real possibilities for research assignments coming to Western from government and industry.

E. A. Barnhardt's Specialty
Closely involved in the program with the spectrometer will be Mr. E. A. Barnhardt, assistant professor of physics and infrared spectroscopist. Mr. Barnhardt, who has completed all course requirements for the doctor of philosophy degree at Vanderbilt University, specializes in the area of infrared spectroscopy.

Prof. Barnhardt said use of the spectrometer in the classroom would bridge the gap between the principles encountered in formal education and the method of their use in modern research laboratories.

He said spectroscopic observations give a very precise method of analysis. For these being more and more used in

WESTERN ENTERS space age research with the addition of an infrared spectrometer to the Department of Physics. Mr. E. A. Barnhardt, assistant professor of Physics, is shown inspecting the new piece of research equipment.

industrial laboratories, particularly in the petroleum, plastics, and metals industries. Research projects anticipated

by Dr. Russell are studies of the behavior and spacecraft materials under space conditions. Continued on page 8, column 1

THE INNER MAN

College is fun and frolic and fulfillment—except for one melancholy omission: we don't get to enjoy Mom's home cooking. (In my own undergraduate days, curiously enough, I did not undergo this deprivation; my mother, a noted cross-country runner, was never home long enough to cook a meal until her legs gave out last Arbor Day.)

But most of us arrive at college with fond gastric memories of Mom's nourishing delicacies, and we are inclined now and then to heave great racking sighs as we contemplate the steam tables in the campus cafeteria. Take, for an extreme example, the case of Finster Sigafos.

Finster, a freshman at one of our great Eastern universities (Oregon State) came to college accustomed to home cooking of a kind and quantity enjoyed by very few. Until entering college, Finster had lived all his life in Europe, where his father was an eminent fugitive from justice. Finster's mother, a natural born cook, was mistress of the haute cuisine of a dozen countries, and Finster grew up living and eating in the Continental manner.

He arose each morning at ten and breakfasted lightly on figs,

My Mother was a noted cross country runner

hot chocolate, and brioche. (It is interesting to note, incidentally, that brioche was named after its inventor, perhaps the greatest of all French bakers, Jean-Claude Brioche (1634-1921). M. Brioche, as we all know, also invented croissants, French toast, and—in a curious departure—the electric razor. Other immortal names in the history of breadstuffs are the German, Otto Pumpernickel (1509-1848) who invented pumpernickel and thus became known to posterity as The Iron Chancellor; the two Americans, William Cullen Raisin (1066-1812) and Walter Rye (1931-1932) who collaborated on the invention of raisin rye; and, of course, Hans Christian Andersen (1805-1875) who invented Danish pastry).

But I digress. Finster, I say, breakfasted lightly at ten a.m. At eleven a.m. his Mom brought him his elevenses. At twelve she brought him his twelves. At 1:30 she served his lunch: first a clear broth; then a fish course (porgy and bass); then an omelette; then the main course—either a saddle of lamb, an eye of sirloin, or a glass of chicken fat; then a salad of escarole; and finally a lemon soufflé.

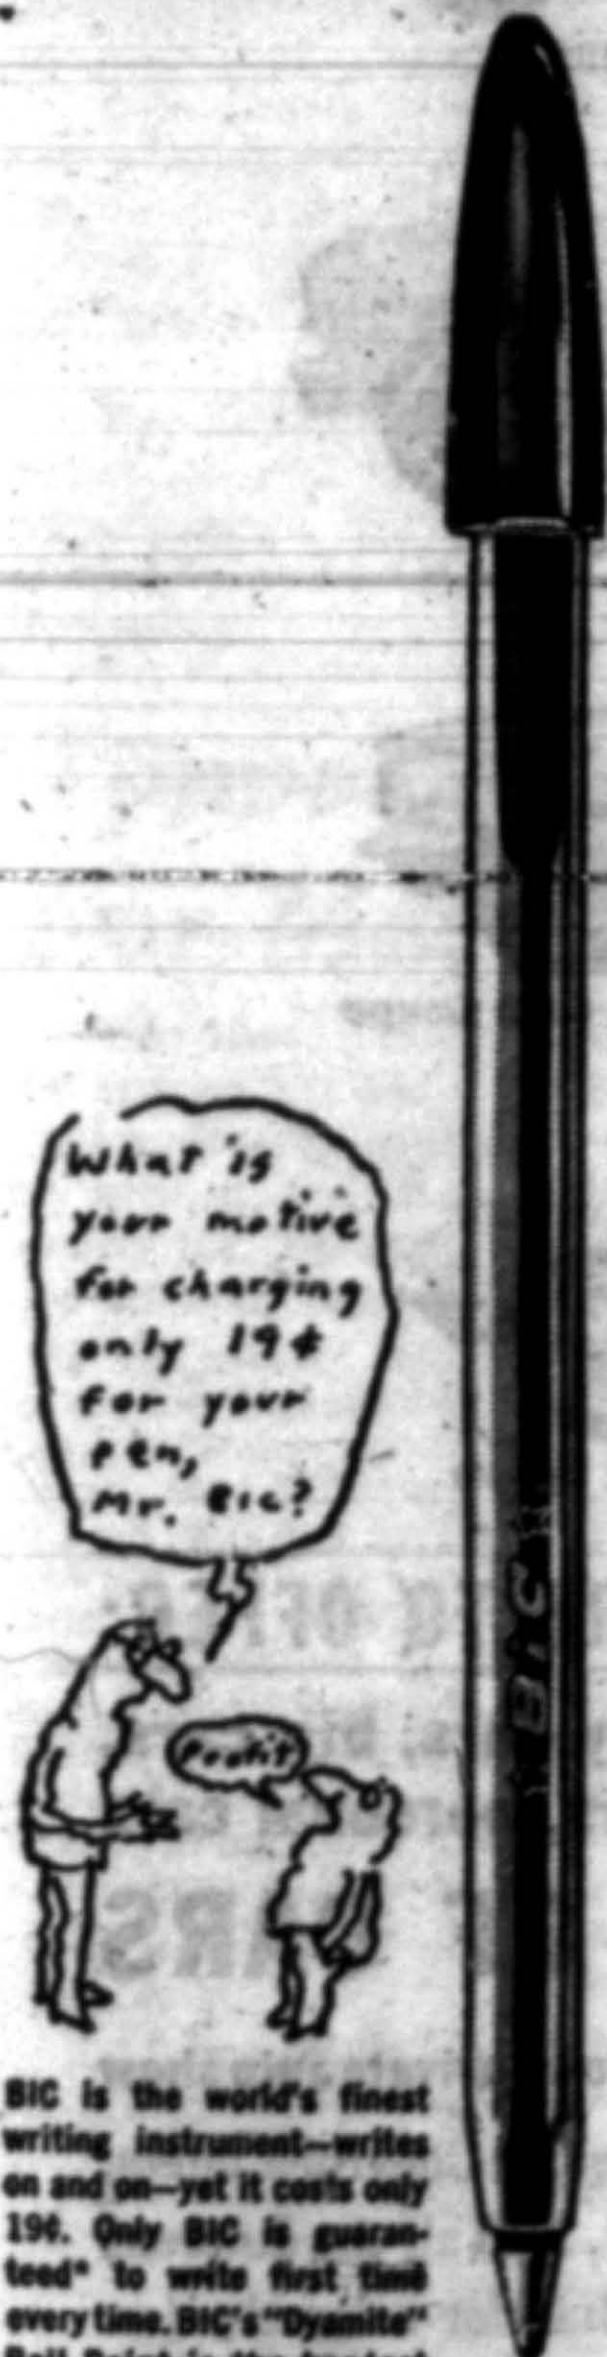

At three p.m. Mom served Finster low tea, at five p.m. high tea, and at ten p.m. dinner—first a bowl of petite marmite (she trapped the marmites herself); then a fish course (wounded trout); then an omelette of turtle eggs; then the main course—either duck with orange or a basin of farina; then a salad of unborn chicory; and finally a caramel mousse.

And then Finster went off to college, which reminds me of Marlboro Cigarettes. (Actually it doesn't remind me of Marlboro Cigarettes at all, but the makers of Marlboro pay me to write this column and they are inclined to get surly if I fail to mention their product. Mind you, I don't object to mentioning their product—no sir, not one bit. Marlboro's flavor is flavorful, the filter filters, the soft pack is soft, the Flip-Top box flips, and the tattoo is optional. Marlboros are available wherever cigarettes are sold in all fifty states of the Union. Next time you're in the U.S.A., try a pack.)

But I digress. We were speaking of Finster Sigafos who went from Continental dining to dormitory feeding. So whenever you feel sorry for yourself, think of Finster, for it always lifts the heart to know somebody is worse off than you are.

© 1964 Max Shubman

We, the makers of Marlboro, can't say whether European food beats ours, but this we believe: America's cigarettes lead the whole world. And this we further believe: among America's cigarettes, Marlboros are the finest.

UP AND UNDER . . . Ray Rhorer (15) scores two points while Darel Carrier (35) comes in for the rebound. The Toppers down Tampa 126-79 setting a new school record.

Toppers Set Three School Marks, Romp Past Tampa

With records being shattered right and left Western got back on the victory parade Saturday night with a convincing 126-79 thrashing of visiting Tampa University.

Led by Darel Carrier, whose 42 points set a new Arena standard, the Hilltoppers fashioned four new school records—most points 126, combined total for

both teams 206, most field goals attempted 99, and most rebounds 83.

Carrier's 42 points, third highest single-game tab in history for a Hilltopper, smashed the arena record of 30. With the 42 point production, Carrier boosted his per game average to 25.3.

Close behind Carrier in scoring was sophomore center Steve Cunningham who notched 34 points before fouling out with 4:35 remaining.

Ralph Townsend led the rebounding barrage with 30 retrieves. In two starting performances Townsend has recorded a total of 34 rebounds for an average of 17 per game.

Tampa, coached by former Hilltopper great Bob Lavoy, were completely outmanned in every department by the Toppers.

Tampa had a cool .268 field goal percentage while the Toppers connected on 46 of 99 attempts for a .465 average.

Regular Topper forward Ray Keeton sat out the entire game due to an injury incurred in the Tennessee Tech game.

NOTICE

Western's organization of Student Wives will meet Tuesday, February 18, at Western Kentucky Gas Company on State Street, 7 p.m. All members are urged to attend this meeting.

Toppers Fall To Eagles In Overtime

Western dropped a heart breaking (92-83) overtime decision to Tennessee Tech Friday night at the Tech goal hall.

The regulation game ended 80-80. Tech outscored Western 12-3 in the 5-minute overtime period after the Toppers had lost four starters on fouls. Departing via the foul route were Darel Carrier who led the Toppers with 26 points, Ray Keeton (16), Ronnie Kidd (11), and Ralph Townsend (9).

The Toppers were in command throughout, but lost their finesse in the latter stages of the game. Tech's pressing defense caused the Toppers to commit numerous and costly floor errors.

Ralph Townsend, in his first starting role, showed signs of helping the Topper rebounding duties. With Bane Sarrett's withdrawal from school, Townsend got the starting nod and delivered 9 points and 14 rebounds. Ronnie Kidd contributed 15 rebounds.

Bobby Young, a thorn in the Hilltoppers' flesh all night, led the hosts with 37 points and 16 rebounds.

Western's record now stands at 2 wins and 10 losses. The victory for Tech evened their record at 8 wins and 8 losses.

SPORT SHORTS

LARRY DYKES,
Sports Editor

The Hilltoppers went on a scoring spree Saturday night and didn't stop until they had broken a school record. Western's 126-79 victory over the University of Tampa broke the old mark of 123 points that was scored against Union College (Jackson, Tenn.) in 1959.

Two More Broken

Two more records were broken as a result of the romp Saturday night. The most points in one game (205) by both teams, the previous record was 203 set in Evansville in 1957 when the Toppers lost to the Purple Aces 105-98. The Hilltoppers grabbed off 83 rebounds bettering their previous mark of 76 against Eastern in 1954. Ralph Townsend led all rebounders with 20 against Tampa.

Cunningham Scores

Steve Cunningham in his first starting role tossed in 34 points against Tampa. This was eight more than he had scored in 10 previous games.

Carrier Set Mark

Darel Carrier set a new Arena scoring mark with 42 points. This was also a career high for the Bristow senior. He had scored 38 against Eastern earlier in the year. Art Spoelstra holds individual single game high scoring honors. He poured in 52 points against Morehead in 1953. Carrier also tied the most field goals attempted in one game with 33 attempts. He hit on 17 of 33 attempts for 51 percent.

Townsend Stars

Ralph Townsend, who started his first game against Tennessee Tech last Friday night, has proved himself to be a capable performer. The Radcliff senior picked off 14 rebounds and scored nine points against the Golden Eagles, and against the Spartans of Tampa, he grabbed 20 rebounds setting a new individual high for the season, and scored six points. Townsend was a Junior College All-Stater at Allen Military College in Bryan, Texas.

Sarrett Departs

Bane Sarrett, whose two-handed jump shot was a rarity among college players today, quit school last Thursday afternoon, telling Coach Diddle that he was dissatisfied with his basketball progress and that he wanted to rest for awhile. He was averaging 11 points a game and was one of the best shots on the team.

Lavoy 1950 All-America

Bob Lavoy, whose Tampa team Western made shambles of Saturday, was an All-America performer for Coach Diddle in 1950. The 6-7 Lavoy won the Helm Foundation honors in 1950 while leading the Hilltoppers to a 25-6 record and a berth in the National Invitational Tournament.

Basketball Banquet Set

Dr. Harry Sparks, state superintendent of public instruction, will be the principal speaker for the Basketball Appreciation Banquet March 31. The Civitan Club announced the \$3 a plate dinner will be held at Western Hills Restaurant.

Topper Harriers Prepare For Mason-Dixon Games

For most people it may be a little early in the year for track, but for Western's powerful young track squad it's an all-year round sport. Since the end of the cross-country season, the team has been working out every day preparing for the indoor meets and with the arrival of spring, the outdoor season.

At the present, all eyes will be on the Mason-Dixon Games this Saturday in Louisville, where the Hilltopper thinlies will not only try to prove their prowess, but hope to gain some nation-wide attention.

Several records are expected to fall and Western's Jerome Beazley was expected to be the holder of a new one. However, Beazley is out of the games with a broken foot. A sound Beazley

is fully capable of a 1:50 indoors, predicts Tom Ecker, Western's coach.

Beazley, who as a sophomore, broke the Ohio Valley Conference half-mile record by a startling 13 seconds last spring, so Ecker felt he should hit 1:48.5 or better outdoors this year. Beazley could prove to be a definite hopeful for the 1968

Continued on page 8, column 3

Tops Down High-Flying Eagles 80-74

They proved they could do it. Last-place Western knocked the high-flying Eagles down from their lofty flight with a 80-74 win over Morehead in a game played just before the semester break.

The win snapped a seven game losing streak for the Toppers as they picked up their second Ohio Valley Conference win. It was Ray Keeton who added the final touches to the success story. The Portsmouth, Ohio, junior scored 25 points and grabbed off 19 rebounds.

Keeton Stars

Keeton stole the spot light from the Eagles' Harold Sergeant and Western's own Darel Carrier as the OVC's number one and two scorers met head on. Carrier ended the game with 16 points while Sergeant finished with 21.

It was Western's Charlie Shuffield and Darel Carrier that kept Sergeant in check most of the night. Shuffield, fouling out midway in the second half, held Sergeant to 15 points while scoring seven himself. It was during the final three minutes that Darel Carrier entered the game for the sole purpose of sticking with Sergeant, and this he certainly did. Sergeant managed only two points in the last three minutes and this was certainly when Morehead needed them the most. Harel did a first rate job guarding the high-scoring Sergeant.

Toppers Lead

Keeton playing the best game of his college career, put the game on ice, when with 1:28 remaining to play, he jumped over everyone to tip in a missed free throw by Bane Sarrett which extended the Hill-

Perseverance paid off for Lambda Sigma Epsilon as they accumulated more than 41,000 pins in the 24-hour bowling marathon which ended at 10:00 p.m. last Saturday evening. The members of the winning team are (standing) Butch Rosenbaum and Dave Peterson (front) Nick Payne, Larry Hall, and Ronnie Penrod.

Spectrometer Installed In Lab

Continued from page 5

ions, and studies of atmospheric transmission in the far-infrared region. The former senior research scientist for an industry involved in missiles and spacecraft research pointed out the increasing importance of infrared in missile tracking and communications.

"We plan to make the spectroscopic services available to local industries for the study of their materials," Dr. Russell said. "We will be able to provide important analytical services to many industries in the region."

Of equal value with the

research aspects of the spectrometer are its uses in graduate and undergraduate instruction, Dr. Russell said. He said it would be an important tool for student research participation, particularly during the senior year and the first Teachers in the National Science Foundation institutes and scientists in the night program of graduate work initiated by Western last year will profit from use of the instrument, Dr. Russell said.

Thinlies Look Forward To Mason-Dixon Games

Continued from page 7

Olympics.

While the weather has been too cold to work outdoors every afternoon, you will find two dozen track and field experts working out atop the Arena while Coach Diddle and his basketball team are going through their drills below on the gym floor. The Mason-Dixon Games will be the first meet of the indoor season which will later include the University of Minnesota, the Drake and Kansas Relays, the NCAA Indoors, and possibly the AAU and NCAA championships.

Sneak Preview

Here is a sneak preview of what is in store for Hilltopper track enthusiasts for the coming track season. Western now has four 440-yard dash men, the slowest of which did 49.0 last spring, two 9.6 sprinters, and a high jumper who can clear 6-6. Put this together with three 14-foot pole vaulters, two excel-

ent milers, a 24-foot broad-jumper, and a couple of top-notch hurdlers and what do you have? Possibly the best track team in the South.

Mile Relay

The mile relay team will have a chance for national recognition Saturday. The slowest of the foursome of Roy Tunner,

Chuck Gullo, Merrill Clark and Beazley has run the 440 in 49.0 flat.

A fine season lies ahead for the Western harriers and the hope of their first OVC championship has the best chance of coming true for the first time since track began here on the Hilltop campus.

Tops Down

Continued from page 7

toppers lead to 75-67.

Western also won the battle of the boards thanks to Keeton's outstanding job, and Ronnie Kidd provided the supporting role picking off 13 grabs. Western out rebounded the Eagles 60-57. Morehead's head mentor Bobby Laughlin, commented after the game saying, "I knew Western couldn't be trusted."

Senior Day

Continued from page 1

and was held each year thereafter until 1942, when it was discontinued because of wartime conditions. The event, which is one of the largest held on the campus each year, was renewed in 1956 and has grown in size each year.

The Clothes Line

by George

— Hello —

Did you make that "A"? Good... I'm glad to hear it! You see, I told you that extra night's studying would pay off. Now you are able to get a fresh start on the new semester.

Karen Harris, "Pi Sig," has the right idea about starting off the new semester. Karen stopped by the Fashion House and picked out a cardigan sweater in lilac and white by Kenrob. She also chose a pair of pants by Mr. Pants.

Sara Weaver stopped by to see everyone and bought a bag by Agner. An Agner bag is as much a necessity to a coeds wardrobe as a Villager blouse.

Athe Browning relaxed after finals by buying a white Villager. You know, it may seem as though every girl that comes to the Fashion House buys something. But that's not right! True... many do; but quite a few come to check on the latest fashions. This week Betty Coakley and Marilyn Steed, "Pi Sig," stopped by the Fashion House, just "browsing and checking" on the latest fashions. Why don't you?

See You There
